EDUCATION

PhD in Computer Vision

Jan 2026 - Present

Universitat de Barcelona (UB)

Topics: Visual Generative Model, Virtual Try-On, Human Body Representation

Master's in Computer Vision

Sep 2024 - Sep 2025

*Computer Vision Center (CVC) Inter-University Program,
including UAB, UPF, UPC, UB, and UOC*

Bachelor of Mechatronics Engineering Technology

Sep 2015 - Mar 2020

Ho Chi Minh City University of Technology and Education (HCMUTE)

RESEARCH EXPERIENCE

Research Assistant

Sep 2025 - Jan 2026

[HuPBA Group](#) - UB & CVC

Barcelona, Spain

Supervisor: Prof. Sergio Escalera, Dr. Meysam Madadi

Topics: Virtual Try-On, Diffusion Model, 4D Human.

- Project: [MV-Fashion dataset](#), a large scale fashion-focused multi-view video (4D) human dataset.
- Designed experiments, evaluations, and established baselines for Virtual Try-On application on the dataset.
- Wrote research article, published in CVPR 2026 as Highlight Paper.

Master Thesis ([Link](#))

Feb 2025 - Sep 2025

[HuPBA Group](#) - UB & CVC

Barcelona, Spain

Supervisor: Prof. Sergio Escalera, Dr. Meysam Madadi

Topics: Virtual Try-Off, Conditional Image Editing, Diffusion Model.

- Investigated the novel task of **Virtual Try-Off**, which aims to reconstruct the canonical garment image from the worn version on a person image.
- Designed and implemented research experiments and evaluation pipeline.
- Wrote research article, published in ICPR 2026.

Graduate Research Intern

Nov 2024 - Mar 2025

MSIAU Group - Computer Vision Center

Barcelona, Spain

Research Supervisor: Professor Daniel Ponsa

- Developed a training and evaluation toolbox to benchmark image super-resolution methods in satellite imaging domain.

PUBLICATIONS

Hunor Laczkó, Libang Jia, **Loc-Phat Truong**, Diego Hernández, Sergio Escalera, Jordi Gonzalez, and Meysam Madadi. "MV-Fashion: Towards Enabling Virtual Try-On and Size Estimation with Multi-View Paired Data." IEEE/CVF Conference on Computer Vision and Pattern Recognition. 2026. **Highlight Paper**.

Loc-Phat Truong, Meysam Madadi, and Sergio Escalera. "What Matters in Virtual Try-Off? Dual-UNet Diffusion Models for Garment Reconstruction." International Conference on Pattern Recognition. Cham: Springer Nature Switzerland, 2026.

Loc-Phat Truong, Bach-Duong Pham, and Quang-Huy Vu. "A mobile deep convolutional neural network combined with grad-CAM visual explanations for real time tomato quality classification system." 2020 5th International Conference on Green Technology and Sustainable Development (GTSD). IEEE, 2020.

INDUSTRIAL EXPERIENCE

Knorex Pte. Ltd.
Senior Data Scientist

Jan 2022 - Oct 2024
HCMC, Viet Nam

- Business problems: Ads Ranking, User Response Optimization, Real-time Bidding.
- Research topics: Online Learning, Contextual Bandit, Machine Learning, Tabular Deep Learning, Model Calibration.
- Implemented prototypes and deployed deep learning model at scale - millions of requests per second.
- Navigate MLOps integration and development.

SceneSeer (Startup) (part-time Dec 2019 - Mar 2020)
Core AI Engineer

Dec 2019 - Jul 2021
USA, remote from HCMC, Viet Nam

- Built and delivered OCR system to client's production - [MEDITECH Expanse](#).
- Implemented computer vision [prototypes](#) (fall detection, facial mask detection, multi-object multi-view tracking, etc.).

TEACHING EXPERIENCE

Ho Chi Minh City University of Technology and Education
Teaching Assistant - 6 semesters

Sep 2017 - Dec 2020
HCMC, Viet Nam

- AMME131529 Applied Mathematics in Mechanical Engineering
- AUCCO330329 Automation Control
- EEEN230129 Electrical & Electronics Engineering

SKILLS

Programming Languages	Python (proficient), Linux Bash(proficient), SQL, C/C++
DL frameworks	Pytorch, Tensorflow
ML&DS Libraries	sklearn, scipy, pandas, polars, matplotlib, opencv, librosa
Application skills	AWS&GCP (server, storage, API, serverless, data warehouse, etc.), Docker, Git
Writing tools	Markdown, HTML, LaTeX
Soft skills	Teamwork, Independent Working, Problem Solving, Project Management, Critical Thinking, Oral Presentation and Leadership
Language skills	English (C1), Vietnamese (native)

HONORS & AWARDS

Maria Capdevila Research Fellowship, Research Fellowship for doing internship in MSIAU group at Computer Vision Center (450 hours)	2024
The honorable mention at Cough-based Covid-19 Detection Challenge, Top 30 highest scores in both 2 phases of this cough audio classification challenge.	2021
Amazon Web Services Certified Machine Learning – Specialty (certification), <i>Score: 941/1000 - Issued by: Amazon Web Services Training and Certification.</i>	2020
The best thesis award, The award for the top highest score thesis of all students graduating this year.	2020
Study Encouragement Scholarship, The scholarship for outstanding academic performance in the school year 2017-2018.	2017-2018
Provincial Excellence High School Student in Mathematics, Third prize in a Math competition for excellent students of all high schools in the province.	2012

EXTRACURRICULAR ACTIVITIES

National robotics competition team leader.

Topics: mechanical-electronic-programming interaction, robot manipulation, trajectory planning, controlling (PID controller), microcontroller programming, robot perceptions (rotary encoder, proximity sensor, line sensor, gyroscope, and accelerometer)

REFEREES

Prof. Sergio Escalera

Full Professor at Universitat de Barcelona, TPAMI and DMLR Associate Editor

ELLIS / IAPR / AAIA / AIIA Fellow

Head of Learning Systems and Behavior Analysis group HuPBA

ICREA Academia / Project Manager at the Computer Vision Center

Email: sergio.escalera.guerrero [at] gmail.com

Webpage: <http://www.sergioescalera.com>

Phone: +34934020853

Dr. Meysam Madadi

Senior Researcher at Universitat de Barcelona & Computer Vision Center (CVC), HuPBA group

Email: meysam.madadi [at] gmail.com

Dr. Quang-Huy Vu

Program Head of Mechatronics Engineering Technology,

Faculty of International Education,

Ho Chi Minh City University of Technology and Education,

Email: huyvq [at] hcmute.edu.vn
